

MIRAILAB BIOSCIENCE Inc.

New Year's Day, 3rd Year of Reiwa

Wishing you and yours a happy and healthy 2021.
And thanking you for your special kindness in 2020.

Since 2016, Shinkowa Pharmaceutical Co., Ltd., has been proud of its work as a bio-venture company, convinced of the infinite possibilities of science, and experiencing the joy of realizing such possibilities in our own laboratories one by one, year by year.

Each year we look back upon, adding to our knowledge and experience, and cherishing each accomplishment, the more we see in our future and the more we are inspired to achieve in years to come. So powerful has this inspiration become, and so close to our hearts, that as of January 1, this year, Shinkowa Pharmaceutical Co., Ltd., will have a new name:

MIRAILAB BIOSCIENCE Inc.

www.mirailab-bio.com

“Mirai” means “future” in Japanese. We have taken this new name to reflect our ever-increasing feeling of hope for the future, our passion to reach greater goals, and our commitment to realize the new possibilities that emerge from every development and discovery.

We are grateful to all our customers and stakeholders who share in and support us in our new name's spirit!

MIRAILAB BIOSCIENCE Inc.
