## **MIRAILAB BIOSCIENCE Releases NMN Well-aging Milk Powder**

*A healthy habit for seniors for necessary nutrients in a delicious, effortless way*

Tokyo, Japan, September 22, 2021 -- MIRAILAB BIOSCIENCE (Headquarters: Chuo-ku, Tokyo, CEO: Megumi Tanaka), creator of the world's highest quality NMN ( $\beta$ -nicotinamide mononucleotide) fortified nutraceuticals, is proud to announce:

### **NMN Well-aging Milk**

For health conscious and active seniors, we have developed a supplement that fortifies milk powder with the benefits of  $\beta$ -Nicotinamide mononucleotide (NMN). The milk powder of this product is enriched especially for seniors, with collagen,

lactoferrin, powdered DHA and EPA, and digestion-resistant dextrin from natural corn-starch to make up for common deficiencies in dietary fiber. Digestion-resistant dextrin helps prevent blood glucose from rising too quickly after a meal. The formula provides refreshment and nutrition in a way that avoids excessive caloric intake.

Each serving also contains 100 mg of Mirailab's industry-leading, highly pure NMN.

Dissolved in water or beverages like coffee or tea, NMN Well-Aging Milk has a pleasant yogurt taste. It can be mixed into regular yogurt or milk, and whatever you mix it with, by limiting the liquid portion, it can be made into a spread for toast or crackers. There are many ways to enjoy!

One pack of the milk will make 15 servings. For those who prefer to have their cup of NMN-fortified milk on a more regular basis we suggest to buy a set of 2 packs.

NMN Well-aging Milk is a well-balanced blend of essential nutrients especially for seniors.

## PRICE

1 box - 24,840 JPY (tax included)

1 set (2 boxes) - 48,600 JPY (tax included)

## CONTENTS

135g per box

Made in Japan

## NUTRITION INFORMATION

Per 9 grams: Energy 32.9 kcal / Protein 4.1 g / Fat 0.23 g / Carbohydrate 3.68 g / Table salt equivalent 0.028 g.

## INGREDIENTS
